PROFILE

Video editor and content creator with **5+ years** and **100+ clients** behind me — documentaries, real-estate films, ad creative, UGC and YouTube channels. I take raw footage, a script, a voiceover or just an idea and turn it into something built to hold attention and say one thing clearly. I own the **full post-production workflow**, produce **AI-generated video** when a shoot isn't the answer or the budget, and handle the **graphic design** around it — thumbnails, titles and brand assets included.

WHAT I MAKE

Documentary films · Real-estate video · Ads & commercials · UGC ads · YouTube long-form · Shorts & Reels · AI-generated video · Graphic design & branding

05 **Deliver**
Every aspect ratio you need, plus revisions until it's right.

IN SHORT

> You send the raw material and the goal. I handle everything between that and the finished file — including the parts most editors hand back to you: the thumbnail, the captions, the vertical cut, and the shot that never got filmed.
